September 09, 2025:

Our home is still continuing to be encircled by a constant stream of vehicles that impose ‘sign language’ and ‘signal’ messaging into our life as a response to every action, every posting, and every event that occurs in our home.

Donald Trump’s team is a gang of criminals that are threatening us, as American citizens, in our home to stifle our political voice and threaten us into silence about his criminal intentions.

We are truly disgusted by the degree and extent to which Donald’s criminal enterprise has been able to freely take over the area in which we live.

I blame our United States military, national security, and federal surveillance teams for this criminal encroachment into our life.

I am stating, publicly, on the record, that I believe our own national security has been compromised by the very same people that are tasked to uphold it.

I am alerting the world that the government is facilitating a mafia-like criminal presence in our neighborhood. There simply is no other way to describe what has happened in our life over the last few years.

Donald Trump, and the federal military powers, appear to be actively targeting us and threatening us in a daily form of harassment, abuse, and nuisance.

Please also note the world events that are taking place under this criminal cloak:
1) Israel is invading and conquering the Gaza Strip;
2) America is bombing Iran;
3) America is destroying ‘drug boats’ in international waters; and
4) Russia is invading and destroying Ukraine.

We are watching criminals run wild over the world and it is time for us to seriously re-consider who we trust, who we rely on, and who we place in positions of ‘power’ around business, government, and public office.

There is undoubtedly a gang of criminals operating within the military of governments around the world, including the United States of America.

Wake up world. Donald Trump is a fruit of the tree of evil.
